zoning, safety, or building regulations. Our low-maintenance products are developed to easily install, and have been engineered to meet your building codes.
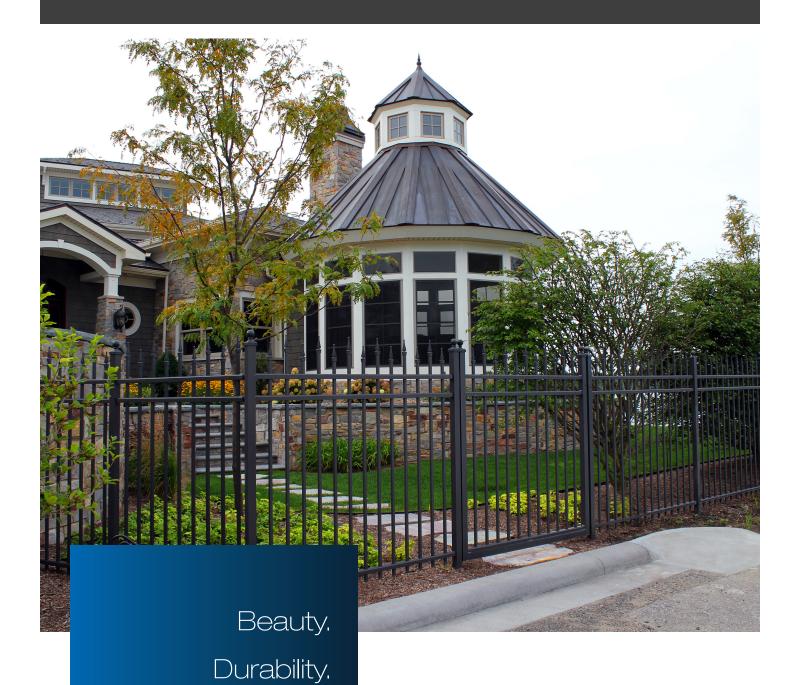

Architects
— For Architects, we offer an extensive collection of fence and railing. Attention to detail, specific project requirements, and comprehensive design is your field of expertise and we support that by offering classic, contemporary, and custom designs. As an approved applicator we provide the highest quality powder coated finish, surpassing 10,000 hours in a salt spray chamber. Our styles of fence are available in six different grades and seven standard powder coated colors. Custom colors are also available. No matter the function of the property you are designing we have a perimeter security, fall protection, and entry point solution to fit within your design.

- Matching entry and walk gates that are strong and complement each fence style
- A breadth of decorative hardware options to meet your security needs
- True height panels for exact measurements
- Exemplary Customer Service departments

Why Alumi-Guard®

Alumi-Guard Brand has been providing innovative, high-quality aluminum fencing, railing, and gate systems to professional contractors, architects, builders and homeowners for decades. We have a wide variety of elegant, durable, and low-maintenance products, available in several different grades, designed to protect homes, businesses, municipalities, and proudly securing some of our nation's military facilities. Our engineered systems help to reduce labor costs, while maintaining the highest quality finishes available within our market; all at a great value.

Through our attempts to provide you the highest quality finish available we have earned the approved applicator distinction by some of the industry's top powder-coating manufacturers due to our superior testing and procedures. Alumi-Guard has been named in "Top 50 Powder-Coat Shops in the U.S." for over 5 years running by Products Finishing Magazine. No other fence manufacturer has been named to this list.

Earning this distinction means our powder coating process meets the most stringent of requirements. With these processes we have surpassed 10,000 hours in a salt spray chamber, more than triple that which is required by AMAA 2604-20 specifications.

Choose from a variety of fence grades, designs, and colors. From backyard pools to industrial applications, we have a fence design to elegantly add protection and/or privacy to your property. Contact an authorized dealer for custom services to make your project stand out.

Homeowners
— For homeowners, we have a large selection of grades, styles, and colors all with a transferable lifetime warranty. From backyard pools, perimeter boundaries, to peace-of-mind in keeping your children and pets safe, we are protecting what you love. Alumi-Guard has a fence design and style to meet your project's requirements.

Builders, Contractors, and Property Managers
— For professional contractors our products have been designed to meet the needs of new home builders to large-scale construction projects. The different styles we offer will meet the requirements of any neighborhood's HOA plan, or comply with any
